Can I Convert Numbers To Words In Excel Free Download For Mac

ThanksRe: Convert numbers to wordsRe: Convert numbers to wordssolution (if no decimal point) -Twelve Thousand Three Hundred Forty Five Dollars and No Cents.. Can you also check the same with another PC and better yet another version of office?May i ask you what is the formula for the grand total you have where your typing in the numbers? Because whenever i type in the formula and press enter i am getting the word valueJust simple numbers no formula to calculate grand total.. If
Mid(MyNumber, 2, 1) <> "0" ThenResult = Result & GetTens(Mid(MyNumber, 2))Result = Result &
GetDigit(Mid(MyNumber, 3))Dim Result As StringResult = "" ' Null out the temporary function value.. 07 in dollars the result is \$Zero Dollars and Seven Cents.. e :I will surely work to include even more currencies as the need arises with better implementation.

I checked on two other PCs and its all fine as I tried to open close and also in different worksheets multiple times.. Should i do any other additional setting in excel?? or something is wrong with this ADD-IN ??And waiting for new ADD-IN which can work in lac and crores also.. Can you add more details so that I can understand where and why this problem is arising? ThanksA great work indeed..
